The other way to travel

In both airports Casablanca Mohammed V and Marrakesh Ménara, Moroccan Airports Authority (ONDA) developed some exclusive services dedicated to the business flying regular users.

Intended for the corporate or private passengers, the Business flying package includes personalized welcome and assistance services, the use of our lounges, the oversimplification of the administrative procedures as well as the flight plan preparation in the best conditions.

A fast speed take-off !

The ONDA Business Flying experience starts right in the entrance of the terminal, once you turn off towards the private access that will lead you to the departure terminal in an easy and safe way. From now on, you get a personalized support that makes you appreciably reduce the queuing time normally needed to fulfill the flight formalities.

A professional team will organize your journey, in a discreet and reactive manner.

The crew is quite spoiled too, with its own private space, updated weather forecast, flight plan...

Now you're all good and ready to take off !

Rest or work, what about both ?

You have to work or you prefer to relax a while, our private executive lounges are the just perfect place to answer your needs. Calm and cozy, guaranteeing maximum comfort, they are designed in a way to optimize your waiting time.

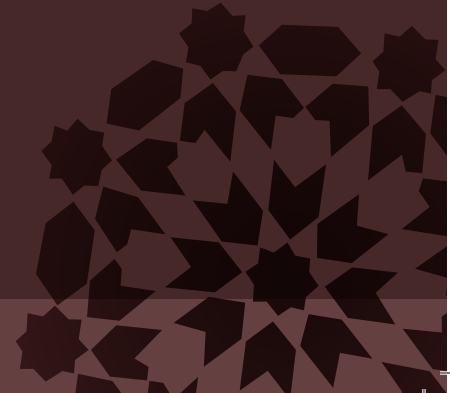

Our services available 24 hours a day including a Wi-Fi hotspot, satellite TV and newspapers.

In case you need a meeting room, ours are yours and can host up to 12 persons.

Business flying as designed by the Moroccan Airports Authority

- Access to the private Executive Lounge;
- Special spot for formalities;
- VIP car park;
- Planes parking close to the Lounge;
